Interested in a Biotechnology Career?

HKU State Key laboratory of Pharmaceutical Biotechnology (SKLPB) seeks candidates to join our team to work on an ITC University-industrial partner project to develop rapid diagnostic assays. Three positions at postdoctoral, senior research assistant (SRA) or research associate levels will be available to work on (1) expression and purification of proteins using different systems; (2) generation of monoclonal and polyclonal antibodies; (3) development of innovative immunoassays for clinical diagnosis. The candidate is expected to coordinate with other team members and industrial partners to develop and validate assays and to bring the assay products to clinical applications. Experience in protein chemistry, immunoassays, clinical diagnosis, antibody production and purification, and animal handling would be an advantage.

A highly competitive salary will be offered, in addition to annual leave and medical benefits. Applicants should send a completed application form together with an up-to-date C.V. to adamyc@hku.hk. Tel: 28315509.
